CHF MEDICATION SCHEDULE

NAME _____ DATE _____

- Check your blood pressure and pulse prior to taking your cardiac medications.
- Call the office if the (top) blood pressure reading is less than _____.
- Call the office if your pulse (at rest) is less than 50 or greater than 120.
- If you forget to take your medicine, do NOT double up on your next dose. Because the medicine affect your heart, it is NOT good to miss doses or to stop, unless instructed by your doctor or nurse.

Medication	Purpose	With Food	AM	Noon	PM	Bed Time
